LOANS

The Board of Directors asks that our members check with the credit union if they are in need of borrowing money. We have low loan rates to reward our members with excellent credit history, and for our members with not-so-good credit, we have rates that are much lower than other financial institutions. We are really here to help our members through good and not-so-good times. We offer various types of loans that we feel benefit our members without strapping them during the current economic times. Stop in the credit union office and talk with us!

ASSETS

As of 9/30/2019: \$8,673,751.70

DIVIDENDS

3rd Quarter were declared at 0.50% Annual Percentage Rate /
0.50% Annual Percentage Yield
